

Letters to the Editor

To the Editor of The Tech:

I have this morning a letter from the president of an M.I.T. student organization suggesting that I should take some steps to prevent a recurrence of the kind of class smoker we had last week.

It seems to me perfectly clear that there was a definite violation of all the conditions under which the Institute granted permission for the use of Walker Memorial. I can now see no other alternative than for the Institute Committee to make definite limitations gauged to inform the planning and to assure adequate control of future class smokers and other recognized student functions wherever held.

As I review the reports that have come to me there seem to have been three major difficulties:

a) The function was not limited to members of the Junior Class; therefore, it lost some of its possibility for stimulating class spirit, loyalty, and responsibility.

b) The quality of some of the entertainment very definitely tended to produce an atmosphere conducive to bad manners.

c) The combination of this entertainment and some of the refreshments served seemed to have produced a nauseous effect upon our more juvenile students.

The Institute is obviously greatly concerned for the development of a high enthusiasm for class spirit, but not for providing facilities for the kind of entertainment offered to students last week.

I am fully aware that there is a large body of opinion prepared to argue that the Junior Class Smoker contributed greatly to good fellowship within the Junior Class. There can be no question about that. There is considerable question, however, about whether the methods used are those that can be sanctioned by Student Government or the Institute itself.

I have already referred this matter to the Institute Committee in whose hands should rest full authority for the control of student activities. I am confident that this properly constituted student governmental authority will establish sufficient limitations to assure that all student functions in the future can be managed so as to produce a high degree of class spirit, good fun, and also good manners.

EVERETT MOORE BAKER
Dean of Students

New Student Bank Office Installed In Building Ten

\$25 Limit On Checks And Withdrawals Will Remain Bank's Policy

Action on greater protection for banking deposits in the Institute, provoked by the recent robberies of the Harvard and Technology Cooperatives, has taken the form of a new office with a police officer on duty at all times. The policy of cashing no checks or withdrawals larger than twenty-five dollars is also to be continued.

The new office, across the hall from the regular Bursar's office in Bldg. 10, will contain the student banking facilities of the Institute, formerly housed in Bldg. 4. The new office will make it necessary for only one policeman to be on duty, whereas two would be required by the old system.

The old office was closed after the robbery of the Technology branch of the Harvard Cooperative, in which an unidentified man walked out with a briefcase containing \$25,000 in cash. The new room was a portion of the Electrical Engineering Measurements Laboratory, and has been completely revamped to fit the needs of the bank. The window formerly in building four has been replaced in the wall opposite the Bursar's office, and the door to the office has been equipped with inch thick bullet-proof glass.

Work on the room should be finished this week, according to Donald Whiston, assistant superintendent of buildings and power. The old room will be used as a filing room for the Bursar's office.

The decision to limit withdrawals and check cashing to twenty-five dollars was made in an effort to lower the amount of cash on hand each day.

OFFICIAL NOTICE

Veterans' Summer Session
All veterans who are planning to attend Summer Session and expect to use the benefits under Public Law 346 will be required to make out a new recommendation of training for the summer term. Full instructions are in the Summer Session bulletin.
All veterans under Public Law 16 who will graduate in June should get in touch with the Veterans Administration Training Officer in Room 20E-221.
Veterans Administration

Post-Election Survey Reveals Cost of MIT Electioneering

A spot survey of the campaign expenditures of the various parties in the recent Institute elections indicate that there is much truth in the saying, "it pays to advertise." The group with the largest outlay was the WBMS organization whose expenditure, according to Arthur A. Wasserman, '51, amounted to about ten dollars for each candidate.

In the Sophomore Class, the Unification party amassed a treasury of about \$32 by assessing the candidates five dollars and by passing around a hat during one of the party meetings for small contributions from the party workers.

\$3 Campaign For Eberly

Donald Eberly, who was the only successful sophomore candidate without a party affiliation, reported a total expenditure of only three dollars raised by his three campaign managers by solicitation and from his own pocket. He said that it was only possible to keep his costs low by means of the good fortune of being able to get a special rate of half-price from the printer. His entire campaign fund went into posters. The Solidarity Slate, who spon-

sored John O'Brien, new Class of '51 Vice-President, spent about twenty dollars on posters, postage, and throw-aways. Most of the other parties also handed out campaign leaflets in the physics lectures.

WBMS Paper Planes

The most conspicuous campaign was put on by the WBMS organization. Their publicity included numerous hand-made posters, and a large display explaining the Undergraduate Government. A clever touch was marking the physics class throw-aways with instructions for making paper airplanes. It created additional trouble for the janitors, but it apparently contributed to the party's victory.

The representatives of the Sophomore's Independent Party and the frosh F.M.P. were not available for information. Their campaigns, however, were not as vigorous as the others.

The Unification Party devoted most of its funds to printed handouts. Its victory was aided by a large organization which was able to divide the work.

Varsity Cindermen Defeat Tufts As John Adams Tops Scorers; Freshmen Team Also Triumphs

PRIZE WINNERS AT ACTIVITIES BALL

Allan B. Wolf and his date, Davita Sheffer of Chestnut Hill, look sheepish as they are rolled off the ballroom floor in their new automobile. The new car, without such accessories as a meter, was the door prize at the Activities Ball held last Friday.

Coward Comedy Comes To Tech

Audience Encompasses Stage in 'Hay Fever'

An experiment in stage form will be introduced to Technology when Noel Coward's "Hay Fever" is presented in Morss Hall at 8:30 p.m., Friday, May 21. The innovation consists of an arena style arrangement of the audience, whereby the stage is surrounded by spectators, and actors must pass through the audience to reach the stage. The new method is being experimented with at Tufts, and Drama Professor John Woodruff of Tufts will coach the play.

Tickets for the affair are available through members of the Staff Players or the English Department office at \$1.50 each. Additional features include refreshments and dancing after the play.

The cast includes two married couples, Professor and Mrs. W. Hawthorne and Mr. and Mrs. Richard Lawrence. Others in the cast are William Siebert, Professor H. G. Steiver, Miss Virginia Butler, Mrs. (Continued on Page 3)

2nd Activities Ball Diversified Affair; Voo Doo Car Won

Music by the Techonians and decorations provided by the various groups around the campus provided a colorful atmosphere for the second annual Activities Ball last Friday night. Approximately 300 couples, representing Technology's various activities, came despite the rain that played hob with formals.

The lucky winner of the door prize received for his valuable award the Voo Doo Staff Car, that famous vehicle with body by Fisher (fished out of the Charles River). It was necessary to make about five or six drawings before a winner could be chosen, as with the Cambridge City Council. Three charming dates of Techmen chose the first number, a holder for which was unfortunately nonexistent. Master of Ceremonies Bill Conant, holding down an M.C. job for the second night in a row, drew the rest of the numbers until a winner was found.

The dance was well under way by 10:00 p.m. when WMIT broadcast a special program from the dance floor. The Techtet, dorm glee club, rendered several songs at intermissions throughout the evening, and a magician demonstrated his mystic arts in a twenty minute show for the entertainment of all.

Scrolls were presented to the student activity leaders by G. Kendall Parmelee, retiring president of the class of 1948. Thanks were also given to the many students that helped in the Ball, as well as the student government.

OFFICIAL NOTICE

Candidates for Graduation in June, 1948

Notices of Recommendation for the June, 1948, candidates for degrees will be mailed to the Term address on Tuesday, June 8.

Please be sure that your term address as given in The Information Office is correct.

Office of Registrar

Dell Isola Takes First In Dashes; Palmieri Loses

Tech's varsity and freshman track teams defeated Tufts Saturday afternoon on the Briggs Field track. The varsity had a comfortable margin, winning 79-56, while the freshmen came through by four points, 65-61.

Boasting two double winners, the Beaver varsity outpointed the Jumbos in both the field and track events. Jack Adams, of Tech, was high-point man in the meet with 14 points. Adams won the discus and hammer throw and placed second in the shotput and third in the javelin. Al Dell Isola paced the runners by taking the 100 and 220-yard dashes for the Red and Grey on a very windy track.

Ingraham Wins

Running a 50.6-second 440, Hal Ingraham, Tech's captain, won over Tufts' highly touted Ed Palmieri. Ingraham also placed second to Dell Isola in the 220. In the half-mile and hammer throw, the Techmen shut out their opponents. Cleworth, Calhoun, and Clark finished in that order in the half, while Adams, Murphy, and Soderberg scored in the hammer throw.

In the freshman meet, Tech's Ed Guertin scored 16 points to lead both teams. Guertin took the discus and shotput and came in second (Continued on Page 3)

Racquetmen Defeat Wesleyan Saturday Kaufmann Leads Team To 7th Straight Win

The Technology tennis team placed its undefeated record on the line against Wesleyan University on the home courts last Saturday afternoon, and emerged with its seventh consecutive victory by a score of 6½-2½.

Playing conditions were far from favorable, with the temperature in the 50's and a brisk wind blowing, as Captain Axel Kaufmann took to the courts against Maurice Cowan in the first match of the afternoon. Cleverly mixing his accurate long volleys and teasing job shots, Kaufmann defeated the Wesleyan star, 6-1, 6-3. Other singles winners for Tech were Warren Watters, Gary Colton, Amos Roberts and Hank Eckardt, as Earl Ruhlig took the only loss.

After the first two doubles matches had been split, and Tech's victory clinched, the third doubles match was called off by mutual consent of the team captains, and the point for the match was split, making the final score 6½-2½.

The Harvard match scheduled for Friday afternoon was postponed due to inclement weather, and was scheduled to be played yesterday. Tomorrow afternoon the team will journey to Hanover to meet Dartmouth's Indians, who lost to Harvard by a scant 5-4 margin and should give the Beavers a good match. The Dartmouth doubles combinations are especially well regarded.

WESLEYAN SUMMARY

Singles—Axel Kaufmann (MIT) defeated Maurice Cowan, 6-1, 6-3; Warren Watters (MIT) defeated George Bushman, 6-4, 8-10, 6-4; Henri Salaun (W) defeated Earl Ruhlig, 6-3, 6-3; Gary Colton (MIT) defeated Don Brewster, 6-0, 6-1; Amos Roberts (MIT) defeated Scollville Soule, 6-1, 3-6, 7-5; Hank Eckardt (MIT), defeated Fred Norton, 8-6, 8-6.
Doubles—Salaun and Brewster (W) defeated Ruhlig and Miller, 0-6, 6-0, 6-1; Colton and Eckardt (MIT) defeated Norton and Soule, 6-4, 6-2.

WHAT ABOUT JUNIOR NIGHT?

Never in our three years around Technology have we heard "Rise Ye Sons of M.I.T." sung with such conviction, such vigor, and such sincerity as it was sung last Thursday at Junior Night.

We make this comment first because we believe it to be the most important feature of the evening. Five hundred men now know better what it means to be a member of a college class. They now know that there is more than just a technical education to be derived from attending Technology. We believe this to have been revealed in that singing. The unprecedented camaraderie of that evening is valuable and worth preserving. Keep that in mind.

All aspects of the evening were not, however, so commendable. Far, far from it. A sorrier example of irresponsible behavior on the part of many we have never seen. Tales about the childish antics and complete disregard of the common rules of society have been well circulated, so we need not add ours. The important thing is that the tales, although exaggerated, are based on fact—many students did behave like animals.

What does this disreputable conduct indicate? Largely it points to the need for more events of the same order. (Specific recommendations for their improvement will be made later.) This paradoxical conclusion is based on the belief that students will always be exposed to situations demanding responsible and temperate conduct. Sermons and protestations will influence only to a small degree the manner in which a student will react in those situations. Strong personal conviction is needed and this inner realization is evoked most effectively by experience and observation.

Experience is often unfortunate and disagreeable. It should not be so. With guidance and the proper conditions, experience can be impressively joyful. Could not the more mature members of a class set examples of proper conduct to guide the uninitiated. That's the goal.

At this point we hope that our readers agree (1) that class stag parties, if properly conducted, can contribute to the binding of ties of fellowship and to the development of mature trustworthy students; (2) that there is no need to suppress conditions that could conceivably lead to baser ways. Wise parents know that their children should learn about life and its temptations at home, not in the streets. Likewise, Technology students should learn social responsibility on the campus, not in downtown Boston.

Now then, what specific suggestions have we in order that future Junior Nights not be subject to the grievous and unfortunate conditions of the first one?

(1) Be more discreet in the selection of entertainment. As an inducement to fill the ranks, entertainment should be secondary to the opportunity to get-together with the boys. Eliminating crowd-drawing entertainers may cut down the attendance—but that's just what we suggest next.

(2) Keep the number of the crowd down. Three-hundred is a maximum. Members of other classes positively should not be admitted. (Estimates of the number of sophomores and seniors at last Thursday's party run as high as one-third of the 500 attending.)

(3) Appoint ten or so respected and rugged members of the class to be marshals. The committee members are too busy with details to devote time to maintaining order.

(4) Promote singing. There's nothing like hearty singing to bring a group of fellows together. This was tried last Thursday but few knew the words except for those of a couple of the better known songs. Hand out mimeographed song sheets. Or possibly the words of the songs could be projected on a screen, but the partial darkness necessary is bad.

(5) Forbid moving of chairs and tables.

These suggestions coupled with a realization of the responsibilities of those attending will, we believe, make class stag-parties the beneficial events that they can and should be.

Fraternity Findings

By JOE FLEMING and
FRED BROWN

DEKES BRING BACK GAY NINETIES

Costumed as anyone in the "Nineties" from parsons to bartenders were the Dekes and their guests Saturday night. The party started on the first floor in the "Deke Beer Tavern" with singing to accordion accompaniment. Activity progressed to the second floor for dancing and on up to the third floor to additional bars and more intimate "discussion." All colors, sizes, and shapes of people and costumes were to be found on all floors. Bill Bibb sported a suit of red scotch plaid, and Lou Peloubet was right for the race track. As the evening aged, the stairway got steeper, the talking louder, and the dancing faster. The party would have lasted all night but for a general agreement to fold shortly before dawn. Warren Walters was in charge of plans for the party.

PHI DELTS GO TO HELL

Led more by desire than Mephistopheles, one hundred couples crossed the River Styx by plank in the Phi Delt backyard Saturday night. Inside the very gates they found a cavern-like room full of bats, spiders, cobwebs, and Techmen. For those who came for the full treatment, the Phi's had a big supply of the finest Purple Passion available that side of the Charles. The party came to an end without any permanent damage to the house, guests, or members, but it was generally concluded that the Phi Delt's were "Satan's Own." Other than a lost date or two, obviously beyond their control, the party committee of Ed Walz, Hal Reeves, Don Vall, Bill Meckert, and Breene Kerr did an excellent job.

OLD INDIAN CUSS WORDS NO DOUBT

A dozen or so Phi Kappa Sigmas drove up to Lake Winnepesaukee for a weekend of hayriding, barn dancing, and canoeing. Spring must have struck hard at the Phi Kappa house as next week it will be Crane's Beach. Running around in the sand dunes up at Ipswich this weekend was a group of Phi Mu Delt's.

THETA XI'S HAVE SPRING FORMAL

With a cocktail party at their house on Bay State Road beforehand, the Theta Xi's held their annual spring formal at the University Club last Friday night. This was followed by an in-house party Saturday night. The weekend activity was run by Peter Bolan and Matt Doyle.

LAMBDA CHI'S GLOBE TROT

Paris, Honolulu, and the Casbah were represented at the Lambda Chi party Saturday night. There was dancing to a nickelodeon and entertainment by magician Don Brown. Bill Fisk made all arrangements.

Letters to the Editor

Dear Sirs:

We, the writers of this letter, are both commuters and members of the freshman class. Recently we have both made inquiry into our chances of securing dormitory rooms next fall. The replies which we received...prompted us to view more closely the policies and operations of the dormitory system. We have interrogated two officials of the dormitory system as well as students in both the permanent dorms and in Building 22.

We were told that...no freshmen have been admitted to the dorms except on the basis of physical disability that would make living somewhere else an extreme inconvenience.

Last fall, under the present Dormitory Board policy, all incoming freshmen were to have been assigned a place in Building 22 until the capacity of that building was reached and the rest were to be provided with emergency housing in the Walker gymnasium until they were able to secure a room off the campus or until accommodations in Building 22 were available.

Since most of the admissions notices are sent out in two groups, one in May and one in June, it would be unfair to admit students to Building 22 on the basis of time of application. For this reason all the applications received before a certain deadline are "put in a hat" and the names of those students who received accommodations was determined by chance alone. The rest of the students are put on the waiting list. When a student far down on the list arrives to register he is often told that his best bet is to locate a room off the campus. Several students...were told that such action would not decrease their chances of getting into the permanent dorms the succeeding fall. In the face of such assurance these students secured rooms off the campus and are now not eligible for rooms in the permanent dorms, since the Dormitory Board recently announced that all vacancies in the

permanent dorms will be men living in Building 22. In the bulletin "Studying"...it is stated that of rooms are reserved for students. Yet we were told present policy was to admit few disabled freshmen to the dorms at present. To the contrary, we have there are about thirty in the dorms at present. with some of them indicating they received accommodations merely as a consequence of being disabled, and that few, if any, are disabled.

In conclusion we would state what we believe the Board should do in order fairly with all students.

- (1) Next fall students be required to "se" in Building 22 as of eligibility for a the permanent dorms.
- (2) That managerial so eliminated as to possible a duplicate discrepancies be dorm policy as to dorm policy as to.
- (3) The dorm board's their policy in such to make misin impossible, by means students alike.

SAE Routs Theta Chi, 27-2, In Delayed Football Title Game

Dependency Proof Required by VA

Student veterans eligible for increased subsistence allowance pay of \$120.00 per month under Public Law 411 are cautioned by officials of the Boston Regional Office of the Veterans Administration that proof of more than one dependent must be submitted.

Until this evidence is presented, such veterans cannot draw the full increase provided by the new law.

Those veteran-trainees having more than one dependent as of April 1, 1948, must present proof of dependency prior to July 1, 1948, in order to receive increased subsistence payments as of April 1. Veterans who claim a minor child as a dependent must submit a certified copy of the birth record.

Veterans who plan to claim, for the first time, a parent or wife as a dependent must submit the evidence on prescribed VA forms, available at any VA Office.

The VA assures veterans in the \$75 and \$105 groups (no dependent and one dependent respectively) that, if their dependency status has not changed, it will be unnecessary for them to submit dependency proof.

Last Sunday afternoon, in a playoff game for the Intramural Football title, which ended in a tie last Fall, Sigma Alpha Epsilon trounced Theta Chi, 27-2, to win the championship.

Theta Chi took an early lead in the first quarter when it got its first and only score of the day, a safety. Sigma Alpha Epsilon got rolling in the second quarter, however, and rolled up three touchdowns which proved more than enough to win the game. Just to make sure of the victory SAE scored another touchdown in the third period.

Ed Swiedler scored two touchdowns for the winners on passes from George Browne. Bill Beaton scored one touchdown, also on a pass from Browne. Browne showed that he could also run when he scored the other touchdown himself on a play from scrimmage.

Staff Players

(Continued from Page 1)

Albert Dietz and Mrs. Janice Leacy. Stage and production managers are Brian O'Brien and Mrs. Richard H. Bolt respectively. Publicity director is Mrs. Julius Stratton and ticket sales are being handled by Mrs. Bell Guillow.

Although the presentation will be only the second play put on by the Staff Players during this academic year, the club has been active continuously in private play readings.

At the club's last meeting Mrs. Richard Bolt was elected President of the Society, and Professor Fritjof Raven was chosen Vice-President.

Westgate Clinches League Title, Gets First Playoff Berth

With the playoffs slated to start the end of this week, the Intramural Softball Tournament is fast drawing to a close.

League I has completed the regularly scheduled games and the record shows the Westgate team as winner with four victories and no defeats, followed by Sigma Chi and the Barracks B team. In League II the winner is still undecided, but Theta Delta Chi appears the team to beat with an undefeated record in three games and only one game left to play, while Theta Chi holds the same position in League III.

While a week ago it looked as if Delta Kappa Epsilon, which ran up a 68 run total in one game, was the team to beat in League VIII, they now stand in second place behind Bemis, which boasts an undefeated record of four games.

The leaders in the other leagues last week were Kappa Sigma and Barracks D, tied for first in League IV, with a record of two wins and no losses; Phi Sigma Kappa, with the same record, leading League V; 5:15 Club, leading League VI with the same record; and Sigma Alpha Epsilon and Goodale, tied for first in League VII, each also sporting two wins and no losses.

Olney Scores Double

Ed Olney scored a double for the Engineers by winning the 220 and 440. Olney ran the former in 23.3, one-tenth of a second faster than Dell Isola's 23.4 in the varsity race.

The varsity and freshman track teams meet the University of New Hampshire tomorrow afternoon at 3 p.m. on the Briggs Field cinders.

Varsity Results

Hammer Throw: Won by Adams (M); 2, Murphy (M); 3, Soderberg (M). Dist. 133 ft. 5 1/2 in.

Shotput: Won by Meagher (T); 2, Adams (M); 3, Fobert (T). Dist. 41 ft. 2 1/2 in.

Discus: Won by Adams (M); 2, Meagher (T); 3, Ballon (T). Dist. 122 ft. 2 1/2 in.

Javelin: Won by Ballon (T); 2, Foster (T); 3, Adams (M). Dist. 163 ft. 4 1/2 in.

Pole Vault: Tie for first between Willits (M) and Ballon (T); 3, Jones (M). Height 11 ft.

High Jump: Tie for first between Roth (M) and Howitt (M); Tie for third between Wolozin (T) and Robinson (T). Height 5 ft. 11 in.

Broad Jump: Won by Fobert (T); 2, Cox (T); 3, Proctor (M). Dist. 21 ft. 3 1/2 in.

Low Hurdles: Won by Wolozin (T). Time 16.7 sec.

100-yd. Dash: Won by Dell Isola (M); 2, Kirkiles (T); 3, Johnson (T). Time 10.5 sec.

220-yd. Dash: Won by Dell Isola (M); 2, Ingraham (M); 3, Palmieri (T). Time 23.4 sec.

440-yd. Dash: Won by Ingraham (M); 2, Palmieri (T); 3, McMartin (M). Time 50.6 sec.

Yale Crews Win All Three Events

In a picturesque nighttime setting (ideal except for the presence of a strong cold headwind, overcast sky and the absence of Lake Gitchigoomee), Technology's varsity oarsmen suffered a three-length defeat at the blades of a powerful Yale crew last Saturday evening on the Charles River.

The varsity event, originally scheduled for 6:00 p.m., was delayed more than two and a half hours because of rough water which earlier in the day swamped several lightweight shells competing in another Charles River regatta. Not until 8:05 p.m. did the Yale and M.I.T. varsities move down the Boston shore to the starting line one and three-quarter miles from the boat-house. It was 8:50, with only the Mazdas on the mainland for illumination, when the race finally ended.

Times Not Fast

Yale crews scored a clean sweep of the evening's events, taking the Tech freshmen by more than two lengths and the jayvees by almost four. The times for the one and three-quarter mile course were very poor, but quite understandable in view of the adverse conditions. Yale's fastest clocking was a 10:40.2 in the jayvee race, while both the M.I.T. varsity and frosh registered an 11:03.5.

Tech oarsmen were understroking Yale for the major part of each race. Both the varsity and freshmen crews led the Ellis at the start, and were evened up at Harvard Bridge, and left behind in the final half mile as Yale moved its boat up to 38 and higher.

The Bulldog varsity shell moved dangerously close to Tech's boat at the bridge, as the Yale cox veered from his course, but no collision ensued in the darkness. A crack-up would have provided little excitement for the few shivering Technology spectators, however, whose only consolation in the blinding darkness was the absence of mosquitoes.

M.I.T. Boatings

Mystery Man To Hit Campus

Sometime during this week you may be stopped on the campus by one of your fellow students and asked to produce your pack of cigarettes.

This man is Mr. ABC, not a moocher. If the pack you produce is Chesterfield, he'll give you a pack to match it—if you are actually smoking a Chesterfield when stopped, Mr. ABC will award you two packs.

S. Martin Billett, '49, campus representative for Chesterfield, has selected a Mr. ABC from each class and a Miss ABC from among Tech's coeds.

Editor's Note

The name of Geraldine R. Sapolsky was incorrectly placed beneath the 5:15 Club picture in the Open House Issue.

Symphony To Give Concert On May 15 At Rindge Tech Hall

Program Will Feature The Scotch Symphony By Felix Mendelssohn

The Technology Symphony Orchestra, under the direction of Professor Klaus Liepmann, will present its Spring Concert on May 15 in the auditorium of Rindge Technical High School, Cambridge. The concert, which is the fifth and last of the season, will begin at 8:30 p.m.

Tickets for the concert priced at \$.90 will be available at the door, and are being sold in Building 10, and at the T.C.A. office.

The program will feature the Symphony number 3 in A Minor ("Scotch") by Felix Mendelssohn, and will also include a Toccata by Girolamo Frescobaldi, Overture in B Minor by Johann Sebastian Bach, Rondino in E Flat by Ludwig van Beethoven (woodwind ensemble), and "Czech Rhapsody" by Jaromir Weinberger.

With this concert, the 65 piece orchestra will end its first season with Professor Klaus Liepmann as director of music at the Institute. According to William Culver, student head of the symphony orchestra, Professor Liepmann has done a great deal to better the music program at Technology.

Previous orchestral presentations this season have included a selection of rarely-heard Bach Cantatas, a program of Handel's "Messiah," and fall and winter concerts. The woodwind ensemble represented the Symphony Orchestra at Open House.

Institute To Start Foundry Program

A foundry program combined with the courses in metallurgy, mechanical engineering, and business administration has been established here to meet the demands for professional training for the foundry industry, announced Dr. Thomas K. Sherwood, Dean of Engineering.

The demands of the last war upon the foundry industry disclosed the great need for college-trained men. The various foundry, trade, and technical associations acting separately and collectively have indicated their intention for supporting a broad program of training in institutions of higher learning.

Not Four Year Course

The new foundry program is not intended to be a four year course in the subject. Leaders in the foundry industry feel that the curriculum in the departments of metallurgy, mechanical engineering, and business and engineering administration permit the inclusion of an adequate amount of specialized work to fit the student for the foundry industry.

Expansion of the Institute's program in foundry training has been facilitated by active interest on the part of the industry. The Steel Founders' Society of America has contributed to the program in teaching and for student research by presenting the Institute with an electric arc furnace, as well as other equipment and scholarships.

Scholarships Established

An equally important aid to the program is a grant from the Foundry Educational Foundation for the purchase and installation of required equipment and the establishment of scholarships.

The foundry laboratory will be a part of the newly created Division of Mechanical Metallurgy under Professor John Wulff, which also includes the laboratories in welding, hot and cold working, and powder metallurgy. The division is administered by the Metallurgy Department, with assistance from the Departments of Business Administration and Mechanical Engineering.

Golf Team Loses To Dartmouth 5-4

The Dartmouth College golf team defeated the Tech squad, 5-4, on Saturday at the Wannamoisett Country Club in Rhode Island. With this victory Dartmouth earns the right to represent the New England district in the Eastern championships at Atlantic City over the week-end.

Winners for Tech in the singles matches were Captain Russ Gwillim, Bill Bommer, and Earl Hoyt. Gwillim and Hoyt also paired up to win a 4 and 3 decision in the four-some competition.

WHY...I smoke Chesterfield

(FROM A SERIES OF STATEMENTS BY PROMINENT TOBACCO FARMERS)

Liggett & Myers buy top quality cigarette tobacco and pay top prices for it . . . nobody will average paying more than they do year in and year out.

I've been smoking Chesterfields ever since I've been smoking. I just like them . . . they have real tobacco flavor.
